SUMMARY

4th-year BS Computer Science (Software Engineering) student at FEU Tech who builds web applications with Next.js, TypeScript, and Supabase, and designs the interfaces that make them easy to use. Seeking a front-end developer internship with a focus on UI/UX.

EDUCATION

FEU Institute of Technology (FEU Tech) *2024 – Present*
Bachelor of Science in Computer Science, Specialization in Software Engineering (BSCSSE) · 4th year

PROJECTS

Viscrete | Thesis, team Visionaries | UI/UX Designer
Next.js, TypeScript, Tailwind CSS, shadcn/ui, YOLOv11

- Designed the interface for a visual inspection system that automates concrete wall defect detection.
- Inspection flow covers image upload and validation, CLAHE preprocessing, YOLOv11 defect detection, and a generated PDF inspection report.

Werewolf | Solo project
Next.js, TypeScript, Supabase (Postgres, Realtime), Tailwind CSS

- Built a real-time game master companion for the party game Werewolf; players join from their own gadgets with a code.
- Deals secret roles, runs night actions, collects votes, and checks win conditions live, with English and Japanese labels.

SideQuest | Group project, FEU Tech
PHP, MySQL, HTML, CSS

- Web platform that connects clients who post paid tasks ("quests") with service providers who take them on.
- MySQL database for client and provider accounts, quests, and transactions.

Papeles | Solo project
Next.js, TypeScript, Tailwind CSS, shadcn/ui, Prisma, SQLite

- Step-by-step guides to Philippine government IDs and documents: requirements checklist, steps, fees, locations, and crowd-reported wait times.
- Each item shows when it was last checked against the official source; static pages built to load fast on budget phones.

EXPERIENCE

Junior Officer, Media Committee | FEU Tech ACM Student Chapter *Oct 2025 – Jul 2026*

- Took and edited photos for event coverage and promotion using Adobe Photoshop and Lightroom.
- Worked closely with other committees to make organizational events run smoothly.

TECHNICAL SKILLS

Languages: Python, C++, JavaScript, TypeScript, PHP
Frameworks: React, Next.js
Databases: Supabase, MySQL
Tools: Git, GitHub, Vercel
Design: Figma, Adobe Photoshop, Adobe Premiere Pro
AI Tools: Claude, Gemini

CERTIFICATIONS

PMI Project Management Ready | Project Management Institute *Mar 2026*

Information Technology Specialist: Python | Certiport, Pearson *Jul 2025*
